PRODUCTIVITY CONSULTATION

NURON

ONE CORDLESS PLATFORM

Nuron will redefine the way you work — and directly impact your bottom line.

Whether you're new to Hilti or considering an upgrade to Nuron, this all-on-one platform can maximize your productivity and help take charge of the most demanding projects so you can start and finish jobs faster.

A connected cordless platform to handle the broadest range of light- to heavy-duty construction jobs and projects, Nuron has you covered.

LONGER RUN TIMES

A fully compatible platform that enables optimization of your tool crib, you can count on higher efficiency than corded or gas-powered tools, helping your teams work with **more work-per-charge, more speed** and **less downtime**.

POWER-PACKED PERFORMANCE

The groundbreaking new battery technology packs **unmatched power** and **performance for demanding jobs** like breaking concrete, serial drilling into tough materials, and grinding and cutting metal.

DURABILITY AND SAFETY

All Nuron tools and batteries come with **improved durability** and more **built-in safety features** to help withstand the harshest conditions, keep your crews safe, and reduce risks that contribute to unnecessary costs and delays on your jobsites.

STREAMLINE YOUR TOOL CRIB AND JOBSITE MANAGEMENT

We're here to help simplify your day-to-day. All Nuron tools are designed with **integrated data-driven services** that help maintain tool and battery health while minimizing downtime and the burden of managing repairs.

NURON

HELP STREAMLINE YOUR DAY-TO-DAY

Nuron offers connected tools and batteries for more transparency to your tools and how they're being used, helping you improve tool crib management and jobsite productivity — with even more services and connectivity enabled for Fleet and ON!Track customers.

Hilti Tool Services

Tool Fleet Management

Better control your tools and your costs. We help manage your tools so you can focus on managing your business.

ON!Track Asset Management

Designed to help make it easier to manage your business, tools, and jobsites

In-House Repair Services

Simple to request tool repair services, often with a 3 to 5 working days turnaround

HILTI

ADDED NURON BENEFITS

Help eliminate jobsite delays and unnecessary costs while freeing up hours to use where they're needed most — allowing you to boost your efficiency, all on one platform.

BUILT-IN DIAGNOSTICS

- Get alerted when tools need maintenance
- Maintenance alerts to help keep your tools working

BATTERY STATE OF HEALTH

- Quickly gauge charge levels
- Automatic battery health scan and replacement service

TOOL USAGE INSIGHTS

- Last charged location
- Know where and who is using tools
- Identify and locate idle, underused, and hoarded tools

NURON

BATTERIES WITHOUT COMPROMISE

THE NURON CORDLESS BATTERY DIFFERENCE

Two additional spring-loaded plugs deliver **twice the power** to your light to heaviest-duty jobs

Shock absorbing bumpers have been added to the outside of the battery for **increased drop protection**

New potted casing **protect electronics** from moisture, dust and other contaminants

Redesigned battery cell holders provide improved heat management to **enable greater performance**

Hilti Nuron cordless batteries not only bring you more connectivity, performance and the flexibility to use the same set of interchangeable batteries for all your tools — they've also been designed to sustain the toughest of jobsites — making your job just a little bit simpler.

With **data-driven insights**, you can make informed decisions for your business and your bottom line

Stored insights **automatically upload** when batteries are charged

Intuitive batteries help you stay ahead by collecting information on **usage, location and health data** while you work

DRYWALL APPLICATION

DESIGN

80% TIME REDUCTION with PROFIS Engineering

LAYOUT

Green laser provides **3 TIMES** more **VISIBILITY**

CEILING

SAVE TIME by selecting the right tools for the job at hand

FRAMING

EFFORTLESSLY cut pipes and channels with Hilti cordless cutting tools

PROTECTION

VARIETY of fire protection options to fit different types of openings

INSPECT

SAVE COST by selecting the right anchor for installation of supports

NURON

DESIGN

HILTI ENGINEERING SERVICES

Our range of professional engineering services are delivered by highly trained and experienced engineers. We will work hand-in-hand with you to develop a design solution for your unique structural or non-structural applications on your projects.

Whether you need technical advice on Hilti product selection or assistance with design calculations, we are ready to assist you with your project needs.

PROFIS ENGINEERING SUITE

Cloud-based PROFIS engineering software for designing concrete-to-steel and concrete-to-concrete connections according to a wide range of codes and approvals

- Capabilities: Anchoring steel to concrete, Anchoring steel to masonry, Concrete overlay, Concrete over metal deck, Handrail fastening, Post-installed rebar
- Codes and approvals: Supports many country-specific design methods, and can generate detailed design reports to easily verify compliance.
- Training and support: No matter if you are a newcomer or an expert, we offer technical training and demonstrations (face-to-face and online) to guarantee you can exploit the full potential of the software.

LAYOUT & MEASURING

STANDARD SIZE PROJECT

PM 20-CG PLUMB AND CROSS LINE LASER

Green beam combi-laser with 2 lines and 5 points for plumbing, levelling, aligning and squaring

- High-speed layout – compact, self-levelling cross line laser with magnetic bracket so you can get started with minimal setup time
- Better visibility up to 20 m – equipped with green beam for easier use indoors and in bright light
- Ultimate versatility – laser cross, five dots and slope mode make this line laser level suitable for virtually all alignment and layout work, even on inclines

Buy Now

PM 30-MG MULTI-LINE LASER

Multi-line laser with 3 green 360° lines for plumbing, leveling, aligning and squaring

- The most compact tool for precise and fast 360° aligning, leveling and squaring
- Compact eccentric design with fine adjustment for easy squaring and fast set up
- Rechargeable B12 Li-ion battery allows up to 1.5 days of continuous layout work
- Out-of-level and low battery alerts help prevent mistakes and unexpected downtime
- Laser class 2 – no special precautionary measures needed

Buy Now

NURON

PM 40-MG MULTI-LINE LASER

Multi-line laser with 3 green lines for plumbing, leveling, aligning and squaring

- The most versatile multi-line laser for precise and fast 360° aligning, leveling and squaring
- Rechargeable B12 Li-ion battery allows up to 1.5 days of continuous layout work
- Metal Blade Axicon technology – protective housing for precision components to keep your multi-line lasers accurate for longer
- Out-of-level and low-battery alerts – help to prevent mistakes and unexpected downtime
- Laser class 2 – no special precautionary measures needed

NURON

MEASURING MADE EASY

PD-S LASER METER

Easy-to-use laser meter for distance and area measurements up to 60 m

- Extremely simplified keypad – intuitive to use
- Rugged and durable to resist hard jobsite environments
- Protected against dirt, dust and splashing water
- Compact design fits in every pocket
- Display with back light illumination to read results even in dark environments

Buy Now

PD-I LASER METER

Robust laser meter with smart measuring functions and Bluetooth® connectivity for interior applications up to 100 m

- Rugged and durable housing – the laser measuring tool made for rough jobsite environments
- Extremely intuitive user interface with an ergonomic button design and layout
- Compact design to fit in every pocket
- Extra-long, integrated measuring extension spike to easily measure in narrow spaces, such as corners or window frame

Buy Now

DID YOU KNOW?

Measuring and layout can be quite time consuming as it requires almost 25% of the total application time and demands accuracy.

Errors can prove to be very costly as it leads to rework and loss of time and effort. Layout when done accurately and fast, can set the pace for rest of the installation application.

INTERESTING FACT

NURON

TRACK ATTACHMENT & CEILINGS

THREADED ROD, STRUT CHANNEL AND CABLES

SC 4MR-22 CORDLESS CIRCULAR SAW **NURON**

Cordless circular saw with minimized weight and size for overhead cuts up to 51 mm

- Higher productivity on your jobsites – the highly efficient and virtually maintenance-free brushless motor helps you get the job done without interruptions
- On the Nuron battery platform – cordless circular saws without compromise thanks to longer-lasting batteries, energy-saving blades and a range of services to keep you more productive, today and tomorrow
- Compact design – right-side blade and chip collector help to make cutting in cramped spaces easier

Buy Now

AG 6D-22 CORDLESS ANGLE GRINDER (150mm) **NURON**

Powerful cordless angle grinder with brushless motor, SensTech control and advanced safety features for discs up to 150 mm

- Very slim but powerful cordless 150 mm angle grinder engineered for your toughest cutting, finishing and grinding jobs
- More cuts per charge – get more done with one battery thanks to the combination of brushless motor and longer-lasting Nuron batteries
- Ultimate power-to-weight ratio – double the cutting speed but the same weight as previous Hilti cordless grinders
- Innovative ergonomics – slimmer grip with touch-activated SensTech dead-man's function instead of a mechanical paddle, for better comfort and maneuverability
- Upgraded safety features – new 3D Active Torque Control (ATC) for better protection against angle grinder kickback in any direction

FASTENING TRACKS WITH DIRECT FASTENING

BX 3-22 CORDLESS CONCRETE NAILER NURON

Battery-powered fastening tool for attaching drywall track and other light-duty fastening to concrete, steel and masonry

- Fully electric nailer with 30-nail magazine developed specifically for drywall contractors – BX 3-22 can replace your gas-actuated tools for laying track with lower noise, recoil, maintenance and no gas costs or user certification
- Uncompromised cordless performance – drive up to 850 nails per charge thanks to revolutionary Nuron batteries and the more efficient brushless motor
- Smart features – the tool automatically primes for the first fastening when you pick it up. Active troubleshooting via the ON!Track app and a nail refill indicator also help you avoid downtime on the jobsite
- Engineered for better handling – contoured grip, short stroke and LED light help you work more comfortably when driving hundreds of nails per day

Buy Now

NAILS FOR BATTERY-ACTUATED TOOLS

Choose from a range of Ultimate, Premium nails (single and collated) for use with cordless nailers

NURON

TE 6-22 CORDLESS ROTARY HAMMER **NURON**

Versatile SDS Plus cordless rotary hammer with wide drilling range, chipping function and quick-change chuck

- Performance, versatility and ergonomics in one – the TE 6-22 cordless rotary hammer has a wide drilling range, chiseling function and more comfort for all-day use
- Helps reduce fatigue – now even lighter, helping you power through larger concrete drilling jobs
- Improved handling – better tool balance and contoured grips so you can drill, chip or drive more comfortably in any position
- Comprehensive safety features – includes Active Torque Control (ATC) to better protect you from uncontrolled spinning if the bit sticks, and Active Vibration Reduction (AVR) for increased shielding from vibration

[Buy Now](#)

HAMMER DRILL BITS

Choose from a range of Ultimate & Premium hammer drill bits designed to excel at drilling in concrete and reinforced concrete with rotary hammers (SDS Plus and SDS Max)

[Buy Now](#)

HUS4-H SCREW ANCHOR

- Up to 2x faster than wedge anchors – fewer work steps help you save time on every single fastening
- Quicker and easier to install – no cleaning, no high-accuracy torque wrench and no hammering required
- Improved setting with less blocking in the toughest concrete – thanks to smaller core diameter and new thread design

[Buy Now](#)

SIW 6-22 1/2" CORDLESS IMPACT WRENCH **NURON**

Power-class cordless impact wrench with 1/2" friction ring anvil for a wide range of concrete anchoring and steel or wood bolting

- Advanced cordless performance – faster concrete screw anchor setting from a more compact tool, thanks to the combination of brushless motor and next-generation Nuron batteries
- Durable build – brushless motor and friction (hog) ring anvil contribute to the extreme longevity of our cordless impact wrenches
- Faster anchor setting with more control – two speed settings and improved LED light so you can set large fasteners more quickly, or maintain precise control when needed
- Exceptional ergonomics – slimmer, 52 mm shorter and 0.4 kg lighter than its predecessor, helping to delay fatigue when bolting and anchoring all day

NURON

FRAMING & BOARD ATTACHMENT

FRAME FASTENING WITH SCREWS

S-DD 03 Z SELF-DRILLING FRAMING SCREWS

Interior metal framing screw (zinc-plated) for fastening stud to track

- Easy to drive due to excellent drilling capability
- Precisely matched to Hilti drivers and bits – helping to achieve high-quality fastenings every time
- Engineered for high productivity with virtually no waste

Buy Now

SF 6H-22 CORDLESS HAMMER DRILL DRIVER **NURON**

Power-class hammer drill driver with Active Torque Control and advanced ergonomics for universal drilling and driving on wood, metal and masonry

- High-speed, high-torque cordless hammer drill driver built to help you save time with every hole you drill or screw you drive, including in masonry
- Uncompromised cordless performance – drill and drive more per charge at consistently high speed thanks to Nuron batteries and the brushless motor
- Built to last – full metal chuck, brushless motor, rubber bumpers and optimized cooling to better withstand intense use under tough jobsite conditions
- Advanced safety features – Active Torque Control (ATC) helps to prevent the tool body from uncontrolled spinning if the drill bit sticks, and an LED work light in the base provides a clear view of your work area

Buy Now

FRAME FASTENING WITH SCREWS

SD 5000-22 CORDLESS DRYWALL SCREWDRIVER **NURON**

Cordless drywall screwdriver with brushless motor for hanging drywall, wood boards and exterior sheathing

- Faster screw-driving – our most powerful cordless drywall screwdriver yet now delivers up to 10% more torque to help you hang more drywall in less time
- Longer battery run time – drive more screws per charge thanks to the brushless motor and revolutionary Nuron batteries
- Advanced ergonomics – in-line grip and improved LED light provide more comfort when hanging drywall all day
- Same magazine interface as SD 5000-A22 02 drywall screwdriver – compatible with your current Hilti screw magazines and accessories
- Improved belt hook – more rigid and durable design to better withstand construction site conditions

[Buy Now](#)

BOARD CUTTING

SC 6WL-22 CORDLESS CIRCULAR SAW FOR WOOD **NURON**

Cordless circular saw for wood cutting up to 60 mm

- Longer battery reach - the combination of the brushless motor and the universal wood blade provide less downtime and more productivity per charge
- Faster cutting speed - the brushless motor combined with a 165 mm universal wood blade result in increased cutting speed
- Increased dust capture rate – exposure to harmful fine dust is reduced thanks to the new dust channel
- 60 mm cutting depth covers most of the applications you need

[Buy Now](#)

WOOD CIRCULAR SAW BLADES

- Choose from a range of Ultimate & Premium circular saw blades, with different diameters, designed to cut wood with circular saws

[Buy Now](#)

SJD 6-22 CORDLESS JIGSAW **NURON**

Powerful top-handle cordless jigsaw with optional on-board dust collection for precise straight or curved cuts

- Better maneuverability – low weight and slimmer, contoured D-grip top handle make this cordless jigsaw more comfortable to guide along complicated cuts
- Safer jobsites – rapid blade brake, Active Vibration Reduction (AVR) and optional dust removal accessories (on-board or connected to a vacuum) all help to make using jigsaws safer
- Easier, more accurate cuts – an LED work light and dust blower help to keep your view of the cutting line clear, while the integrated shoe minimizes drag against the workpiece

CLOSING INSPECTION & DOCUMENTATION

ON-SITE TESTING BY HILTI ENGINEERS

You can use on-site testing in the design phase and after installation of a fastening system

- During the design phase – determine the resistance of a base material and which fastening system to use
- After installing anchor systems – determine quality and safety. This can be required by building owners or to ensure compliance to local guidelines
- Determine the resistance values of an unknown base material or of base materials, which are different and not in the original approval document.
- Check the quality and safety of fastening systems after installation, by testing part of the installation.

INCREASE YOUR JOBSITE PRODUCTIVITY

SEE HOW PRODUCTIVITY CONSULTATION WORKS

Some of the major challenges faced in the construction industry are controlling costs, complying with regulations and managing your workforce to make sure you have enough people with the right skills to get the job done on time. Inefficient processes, unplanned costs and an unproductive workforce can amount to up to 25% of the overall cost of a project, imposing a negative impact on your business and its profitability.

Our dedicated Solution Consultants can help you identify opportunities to optimise and streamline your tool park and digitalise the way your tools and other assets are managed, in order to keep hidden costs to a minimum and boost overall productivity. We can help you to make changes that will keep your productivity up, and your costs down.

With over 75 years of industry knowledge at Hilti, our Solution Consultants have helped thousands of Hilti customers identify opportunities to optimise and streamline their tool park and digitalise the way their tools and other assets are managed, in order to keep hidden costs to a minimum and boost overall productivity.

[Contact us for Consultation](#) ➤

ASSET INVENTORY

We assess the number and condition of the tools you have onsite, in vehicles and in your warehouse

COST OF OWNERSHIP

We uncover the hidden costs caused by repairs, lost or stolen tools, administration, downtime etc.

PROCESS MAPPING

We identify opportunities to streamline your processes for managing materials, people, tools & certificates

TOOL UTILISATION ANALYSIS

We monitor tool productivity and compare with potential alternatives

PRODUCTIVITY REPORT

We give you transparency on productivity gains and cost savings with advice on the most effective way to manage your assets and compliance
