· Risk phrases:

- 20/21/22 Harmful by inhalation, in contact with skin and if swallowed.
- 34 Causes burns.
- 36/38 Irritating to eyes and skin.
- 43 May cause sensitisation by skin contact.
- 52/53 Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
- 62 Possible risk of impaired fertility.
- 68 Possible risk of irreversible effects.

· Safety phrases:

- Avoid contact with eyes.In case of contact with ey
 - In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
- 36/37/39 Wear suitable protective clothing, gloves and eye/face protection.
- 45 In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

· Special labelling of certain preparations:

Contains epoxy constituents. See information supplied by the manufacturer.

- Restricted to professional users.
- · Other hazards
- \cdot Results of PBT and vPvB assessment
- **PBT:** Not applicable.
- vPvB: Not applicable.

4 First aid measures

· Description of first aid measures

After inhalation

Take affected persons into the open air and position comfortably

Seek medical treatment in case of complaints.

• After skin contact Instantly wash with water and soap and rinse thoroughly. If skin irritation persist, call a physician.

- After eye contact Rinse opened eye for several minutes under running water. If symptoms persist, consult doctor.
- After swallowing Instantly call for doctor.
- Information for doctor
 Most important symptoms and effects, both acute and delayed No further relevant information available.
- Indication of any immediate medical attention and special treatment needed No further relevant information available.

5 Firefighting measures

- · Extinguishing media
- Suitable extinguishing agents Water spray, carbon dioxide (CO2), carbon dioxide blanket, foam, or dry powder.
- Special hazards arising from the substance or mixture Formation of poisonous gases during heating or in fires.
- · Advice for firefighters
- Protective equipment: In the event of fire, wear self contained breathing apparatus

6 Accidental release measures

· Personal precautions, protective equipment and emergency procedures

Wear protective clothing.

Keep away from ignition sources

Use personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition.

• Environmental precautions: Do not allow to enter drainage system, surface or ground water.

- \cdot Methods and material for containment and cleaning up:
- Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Collect mechanically.
- Dispose of contaminated material as waste according to item 13.
- Reference to other sections
- See Section 7 for information on safe handling
- See Section 8 for information on personal protection equipment.
- See Section 13 for information on disposal.

7 Handling and storage

- · Handling
- · Precautions for safe handling

Provide sufficient air exchange and/or exhaust in work rooms. When using, do not eat, drink or smoke. Ingestion, exposure to skin and eyes and inhalation of any general vapours should be avoided.

· Information about protection against explosions and fires: No special measures required.

- · Conditions for safe storage, including any incompatibilities
- · Storage
- Requirements to be met by storerooms and containers: Keep in a cool, dry and dark place; 10 °C to 40 °C.
- · Information about storage in one common storage facility: Store away from foodstuffs.
- Further information about storage conditions: Store in a locked cabinet and out of the reach of children.

· Storage class 8 A

· Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

· Additional information about design of technical systems: No further data; see item 7.

· Control parameters

Components with limit values that require monitoring at the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

Version number 2

Revision: 14.06.2013

Trade name: CM 510-1 (A&B)

| | (Contd. of page 3) |
|--|--------------------|
| Additional information: The lists that were valid during the compilation were used as basis. | |
| Exposure controls | |
| Personal protective equipment | |
| General protective and hygienic measures | |
| Keep away from foodstuffs, beverages and food. | |
| The usual precautionary measures should be adhered to general rules for handling chemicals. | |
| Take off immediately all contaminated clothing | |
| Wash hands during breaks and at the end of the work. | |
| Avoid contact with the eyes and skin. | |
| Breathing equipment: Use breathing protection in case of insufficient ventilation. | |
| Protection of hands: | |
| Protective gloves | |
| EN 374 + EN 388 | |
| The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. | |
| Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation | |
| Material of gloves Synthetic gloves | |
| Penetration time of glove material | |
| The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed. | |
| Eye protection: | |
| Tightly sealed safety glasses. | |
| EN 166 + EN 170 | |
| Body protection: Protective work clothing. | |

9 Physical and chemical properties

| > i hysicai and chemicai prop | |
|--|--|
| • Information on basic physical and c • General Information | hemical properties |
| · Appearance: | |
| Form: | Fluid |
| Colour: | Light yellow |
| · Odour: | Amine-like |
| · Odour threshold: | Not determined. |
| · pH-value: | Not determined. |
| · Change in condition | |
| Melting point/Melting range: | Not determined |
| Boiling point/Boiling range: | > 60 °C |
| · Flash point: | Not applicable |
| · Inflammability (solid, gaseous) | Not applicable. |
| · Ignition temperature: | |
| Decomposition temperature: | Not determined. |
| · Self-inflammability: | Product is not selfigniting. |
| · Danger of explosion: | Product is not explosive. |
| · Critical values for explosion: | |
| Lower: | Not determined. |
| Upper: | Not determined. |
| · Vapour pressure: | Not determined. |
| · Density | Not determined |
| · Relative density | Not determined. |
| · Vapour density | Not determined. |
| · Evaporation rate | Not determined. |
| · Solubility in / Miscibility with | |
| Water: | Partly miscible |
| · Partition coefficient (n-octanol/wate | er): Not determined. |
| · Viscosity: | |
| dynamic: | Not determined. |
| kinematic: | Not determined. |

| | |

10 Stability and reactivity

- · Reactivity · Chemical stability
- Thermal decomposition / conditions to be avoided: Stable until boiling point
- · Possibility of hazardous reactions

Reacts with strong acids and alkali Reacts with strong oxidizing agents

(Contd. on page 5)

⁻ PH

Version number 2

Revision: 14.06.2013

(Contd. of page 4)

Trade name: CM 510-1 (A&B)

- · Conditions to avoid No further relevant information available.
- · Incompatible materials: No further relevant information available.
- \cdot Hazardous decomposition products: Corrosive gases/vapours

11 Toxicological information

· Information on toxicological effects

- Acute toxicity:
- \cdot LD/LC50 values that are relevant for classification:
- 2855-13-2 3-aminomethyl-3,5,5-trimethylcyclohexylamine
- Oral LD50 1030 mg/kg (rango)
- 100-51-6 Benzyl alcohol
- Oral LD50 1230 mg/kg (rango) Dermal LD50 2000 mg/kg (rbt)
- 25620-58-0 trimethylhexane-1,6-diamine
- Oral LD50 900 mg/kg (rango)
- · Primary irritant effect:
- · on the skin: Caustic effect on skin and mucous membranes.
- on the eye: Strong caustic effect.
- Sensitization: Sensitization possible by skin contact.
- Additional toxicological information:
- The product shows the following dangers according to the calculation method of the General EC Classification Guidelines for Preparations as issued in the latest version:
- Corrosive

Product is suspected to cause injury to foetus.

12 Ecological information

- · Toxicity
- · Aquatic toxicity: No further relevant information available.
- · Persistence and degradability No further relevant information available.
- · Behaviour in environmental systems:
- · Bioaccumulative potential No further relevant information available.
- · Mobility in soil No further relevant information available.
- · Ecotoxical effects:
- · Remark: Harmful to fish
- · Additional ecological information:
- · General notes:
- Do not allow product to reach ground water, water bodies or sewage system.
- Water hazard class 2 (German Regulation) (Self-assessment): hazardous for water.
- · Results of PBT and vPvB assessment
- · PBT: Not applicable.
- vPvB: Not applicable.
- · Other adverse effects No further relevant information available.

13 Disposal considerations

- · Waste treatment methods
- Recommendation Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

· European waste catalogue

08 04 09* waste adhesives and sealants containing organic solvents or other dangerous substances

- · Uncleaned packagings:
- · Recommendation:
- Disposal must be made according to official regulations.
- Dispose of packaging according to regulations on the disposal of packagings.

15 Regulatory information

· Safety, health and environmental regulations/legislation specific for the substance or mixture

· Philippines Inventory of Chemicals and Chemical Substances

All ingredients are listed.

· Designation according to EC guidelines:

· Hazard-determining components of labelling: Contains epoxy constituents. See information supplied by the manufacturer.

· National regulations

- · Information about limitation of use: Employment restrictions concerning young persons must be observed.
- · Chemical safety assessment: not required.

16 Other information

These data are based on our present knowledge. However, they shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

· Relevant phrases

- H302 Harmful if swallowed.
- H312 Harmful in contact with skin.
- H314 Causes severe skin burns and eye damage.
- H315 Causes skin irritation.
- H317 May cause an allergic skin reaction.
- H318 Causes serious eye damage.
- H319 Causes serious eye irritation.
- H332 Harmful if inhaled.
- H335 May cause respiratory irritation.
- H341 Suspected of causing genetic defects.
- H361f Suspected of damaging fertility.
- H411 Toxic to aquatic life with long lasting effects.
- H412 Harmful to aquatic life with long lasting effects.

R20/22 Harmful by inhalation and if swallowed.

- R21/22 Harmful in contact with skin and if swallowed.
- R22 Harmful if swallowed.
- R34 Causes burns.
- R36/38 Irritating to eyes and skin.
- R37 Irritating to respiratory system.
- R38 Irritating to skin.
- R41 Risk of serious damage to eyes.
- R43 May cause sensitisation by skin contact.
- R51/53 Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
- R52 Harmful to aquatic organisms.
- R52/53 Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
- R62 Possible risk of impaired fertility.
- R68 Possible risk of irreversible effects.
